# Executive Summary

## Introduction

In February 2013 a rural housing needs survey was sent out to all residential households within Bunbury Parish, the purpose of the survey being to assess the affordable housing needs within the parish.

577 surveys were sent out and 232 returned, giving a response rate of 40%.

## Key findings

### Affordable housing – In favour or not

53% of respondents were in favour of a small development of affordable housing being built within the parish, with 34% against it and 13% unsure either way. If a development were to be built in Bunbury, respondents felt it would be a positive step towards keeping families and communities together, and towards enabling the younger generation to secure their future.

However, there were concerns that: there were already developments already being built, therefore more were not needed; the current infrastructure would be unable to sustain a bigger community; the countryside needed to be protected; the village should remain as a village, and not develop into a town.

Bunbury respondents made a total of 39 suggestions/comments when invited to suggest potential new sites for development. A number of sites were mentioned, including: 5 suggestions on land near Church Row; 2 suggestions for Bunbury Lane between Hill Close and Hurst Close.

### Housing needs within Bunbury

The survey highlighted several types of resident that had an affordable housing need within Bunbury, including:

- 17 respondents requiring alternative housing within the parish
- 33 current Bunbury residents who wish to form a new household within Bunbury or Cheshire East within the next 5 years
- 18 ex-Bunbury residents who would move back into the parish if affordable housing were available.

Of these 68 potential new households:

- 27 could be either subsidised ownership or rentable properties
- The majority would be for a son or daughter of a respondent
- The majority would be required within the next 2 years.

## Introduction

In February 2013 a rural housing needs survey was sent out to all residential households within Bunbury Parish – the area highlighted on the following map:

The purpose of this survey was to assess the housing needs of Bunbury in respect of affordable housing.

Similar surveys have been carried out in previous years in other rural areas across Cheshire East. These can be viewed on the Cheshire East website ([www.cheshireeast.gov.uk/housing/affordable\\_housing/rural\\_housing.aspx](http://www.cheshireeast.gov.uk/housing/affordable_housing/rural_housing.aspx)).

577 surveys were sent out and 232 were returned, giving a response rate of 40%.

Note: There may appear to be some anomalies in the results. This is because some of the questions had multiple choice answers, and some were not completely answered or were filled in incorrectly. The following results have not been extrapolated.

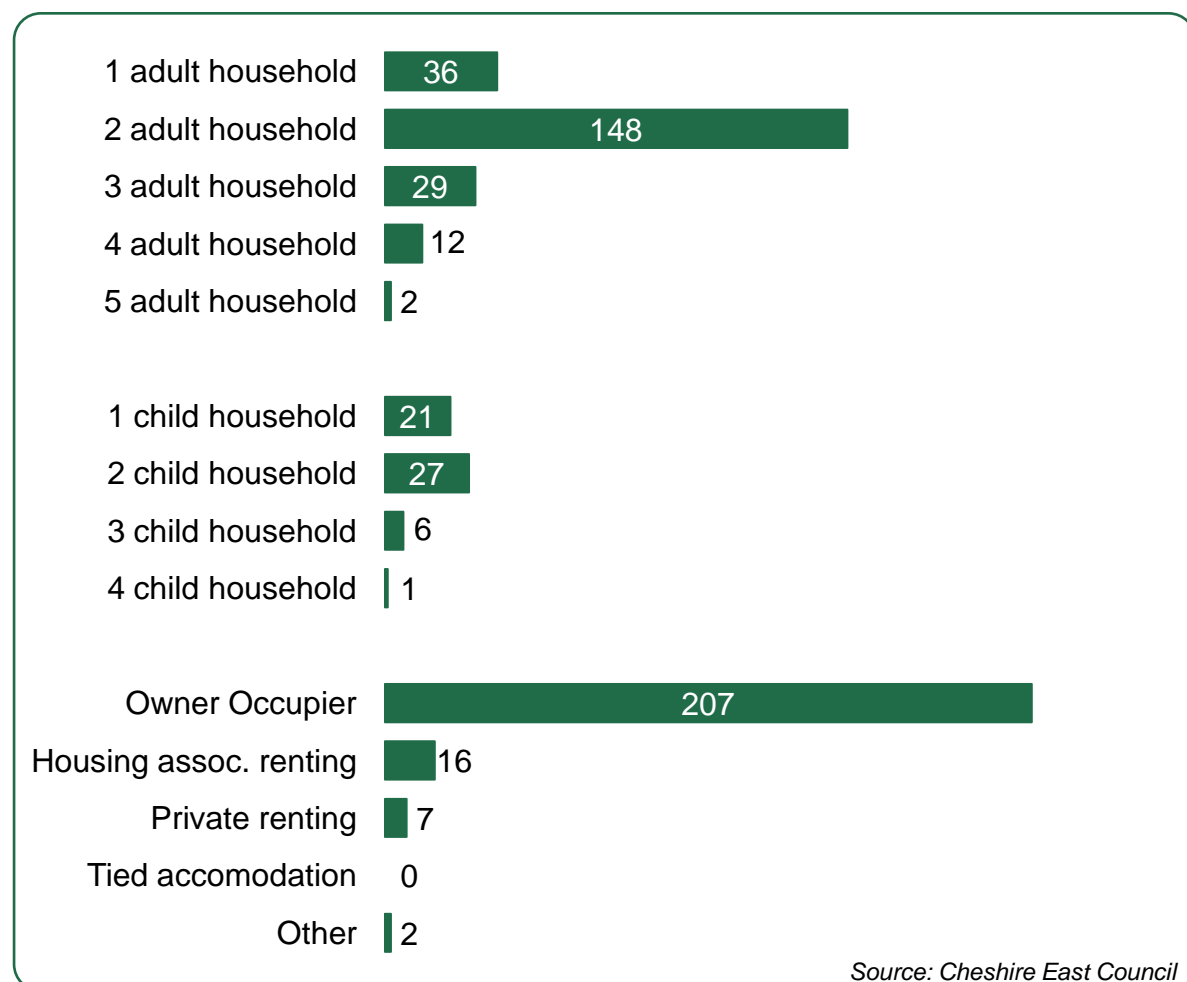

## Current accommodation

Section 1 of the questionnaire asked respondents about their current accommodation.

The first question asked respondents how many years they had lived within Bunbury Parish - the majority, 80%, had lived there for over 5 years, with the remaining 20% having lived there for less than 5 years.

Questions 2 and 3 asked about the number of people living in each household, and about household tenure. The majority of households (184 out of 227, 81%) were 2 adult households, with very few having 3 or more children. The majority of households were owner occupied (207 out of 232, 89%), see Figure 1.

**Figure 1 – The number of household members, and household tenure**

## Affordable housing

### In favour of affordable housing or not?

Question 6 asked respondents if they would be in favour of a small development of affordable housing being built in their parish to meet the needs of those having a local connection to the parish. Of the 227 Bunbury respondents answering the question, 120 (53%) were in favour, 77 (34%) were against and the remainder were unsure - see Figure 2.

**Figure 2 – Would you be in favour of a small development of affordable housing being built in your parish to meet the needs of those having a local connection to the parish?**

### Reasons for being in favour of affordable housing or not

Within question 6 respondents were asked if they would like to give a reason for why they were, or were not, in favour of a small development of affordable housing being built in their parish.

A total of 101 Bunbury respondents gave a reason for their decision - 38 were made by those in favour, 48 were made by those against, and 15 were made by those that were unsure. It is interesting to note that although the majority voted in favour of a development of affordable housing, more comments were received from those who were against a development of affordable housing.

#### A summary of the 38 comments made by those in favour

The overwhelming response from those who were in favour was that it should be for local people only, and in particular young local residents, to enable them to live in the community they grew up in - many felt too many properties are out of their price brackets which forces them to move out of the area.

Comments also made reference to the fact that some housing had been made available to people from outside the parish. Some comments were made that single storey accommodation should be made available for the older generation which would enable them to downsize or be more suited to their needs. People also felt it would help the diversity of the community and keep a well balanced requirement of social needs. They also said that it would support the local pre-school and school.

## **A summary of the 48 comments made by those against**

The majority of comments made against development stated that 2 sites have/are being built already and they were quite adamant that no more were needed. A reference was made to the fact that affordable accommodation had been demolished and larger homes built.

They were worried about the added pressure on the local school, amenities and roads, which would be unable to cope with the extra traffic, as well as concerns about the loss of green space and the village identity - too much development was urging the 'village' to become a 'town'. Others were concerned that 'affordable housing' would devalue their property.

One comment stated that affordable housing is usually only affordable once as the market then dictates what price the property will be. They also said that rented accommodation is not usually as well maintained as an owned property is. Too much development then leads to an urban sprawl hence the area becomes less desirable to live in.

## **A summary of the 15 comments made by those who were unsure**

People were unsure because there was already development happening in the village. They wanted to know if it meant 'another' one. Others wanted to know the number a 'small' amount would be. They felt they needed to know who these had been allocated to, to ensure they were being prioritised for the locals.

Comments were made to the fact they wanted to wait to see the finished existing development first to ascertain whether it fitted in with the village. Others were concerned that local amenities couldn't cope with the added demands and felt that public transport would need to be improved. Furthermore, others wanted no more heavy vehicles going through the village as it was already causing damage to their property.

## **Suggested potential sites for affordable housing**

Question 7 of the survey asked respondents if they were aware of any sites that might be suitable in their local area for affordable housing, and, if so, what the details were. Bunbury respondents made a total of 39 suggestions/comments:

- 20 said they knew of no suitable sites or wanted to emphasise that they didn't want any more development, with 1 stating that it was already being built and 1 stating that they wanted no more than the 2 that were being built
- 1 said there were several sites but there had recently been 14 job losses since 2004 - was there a need for a development?
- 5 suggested a site near Church Row
- 2 suggested Bunbury Lane between Hill Close and Hurst Close, Queens Street & the adjacent fields

- 1 suggested land that was for sale on School Lane/Bunbury Heath
- 1 stated that next to Bunbury playing field there was a dilapidated/abandoned house that could be renovated/converted
- 1 suggested land off Bunbury Lane that used to be Goodyear Packaging (Please note that this land may have already been developed upon)
- 1 suggested land adjoining Bunbury Lane via property of Parkside to land at the rear
- 1 suggested infill at Bunbury Common
- 1 suggested infill and the edge of the village
- 2 wanted brown field sites to be used first
- 1 wanted it to be where a large development had already occurred
- 1 stated that they owned a field which they have applied to be included in the Interim Planning Policy and were willing to release a portion of this if planning was given for the rest
- 1 gave an OS map reference - SJ 5657-0819-0129-1640 SJ 5859-3948

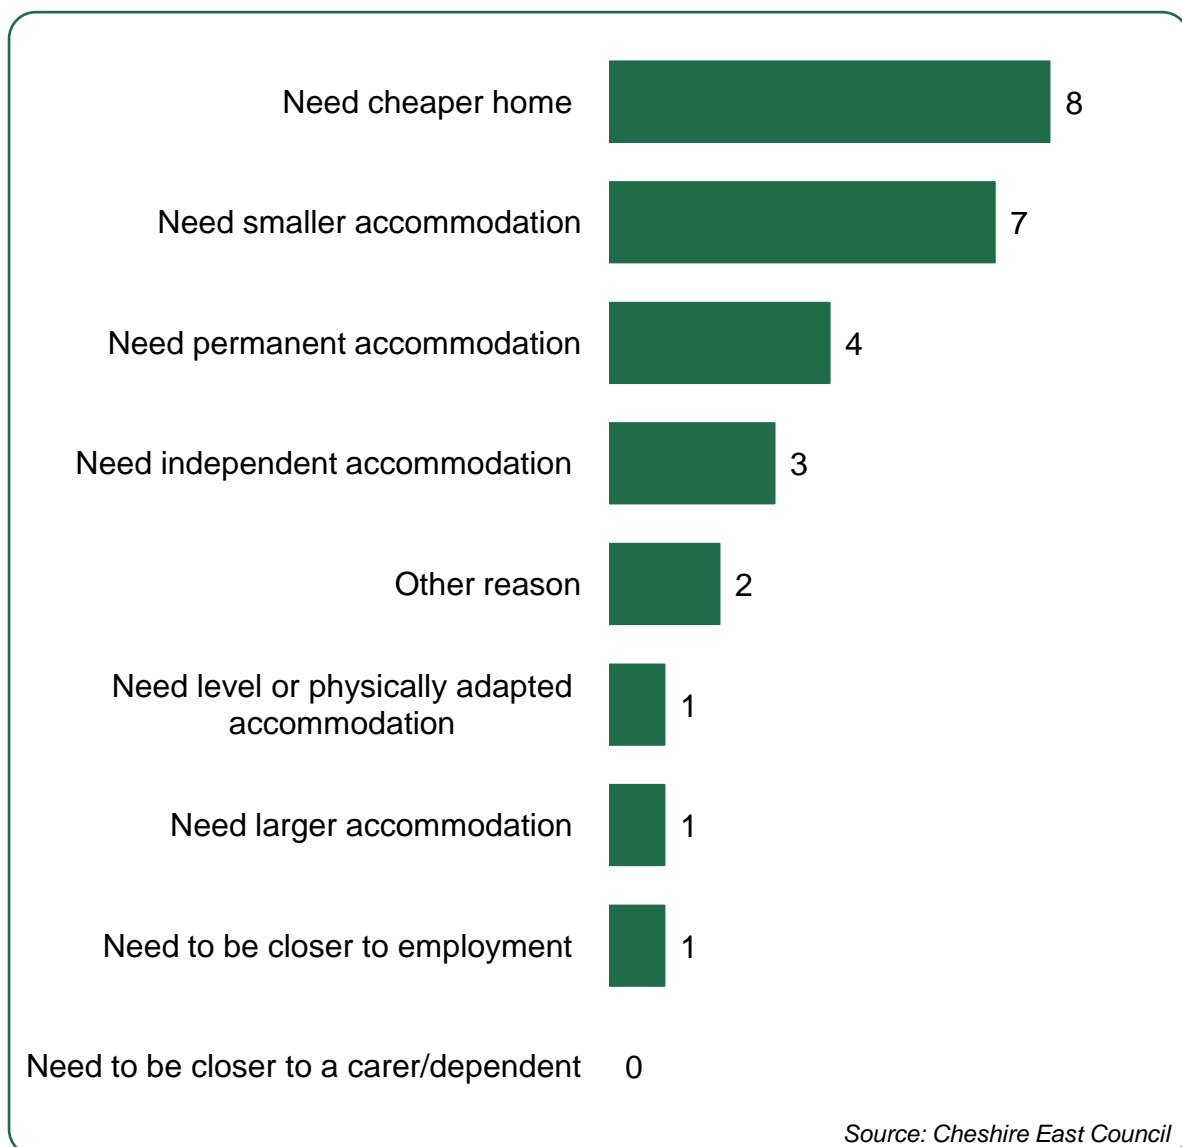

## Alternative accommodation

Question 4 asked respondents if they, as the householder, currently needed alternative accommodation in their local area. 228 Bunbury householders answered the question, of which 17 (7%) said yes, with the remainder answering no.

The 17 who said they required alternative accommodation were then asked why. They were presented with a list of 9 possible options, from which they could select as many as they wished – the 17 respondents who said they required alternative accommodation selected 27 reasons between them.

The majority of reasons selected were that respondents required a cheaper home (selected by 8 respondents) or needed smaller accommodation (selected by 7 respondents) - see Figure 3.

**Figure 3 – Why alternative accommodation is needed in Bunbury Parish**

## New households

### Numbers of potential new households in Bunbury

Question 8 asked if any household members, apart from the person completing the survey, wished to form a new household inside Cheshire East within the next 5 years, for which they would need their own accommodation.

218 Bunbury respondents answered the question, of which 23 (11%) answered yes, with the remaining 195 (89%) answering no, see Figure 4.

**Figure 4 – Do any other household members, apart from yourself, wish to form a new household inside Cheshire East within the next five years, for which they will need their own accommodation?**

Of the 23 Bunbury respondents that answered yes, 14 said that just 1 member of the household wished to form a new household, 8 said two members of the household did, and 1 said three or more members of the household did - see Figure 5. Therefore, of those that answered the survey, a minimum total of 33 Bunbury residents  $[(1 \times 14) + (2 \times 8) + (3 \times 1)]$  wish to form a new household inside Cheshire East within the next five years.

**Figure 5 – How many members of your household wish to form a new household inside Cheshire East within the next five years, for which they will need their own accommodation?**

### Details of the 23 new households required in Bunbury

Questions 10 to 13 of the survey that followed then asked these 23 respondents about the details of the new household to be formed. The 9 respondents who indicated that more than 1 member of their household wished to form a new household were asked to answer questions 10 to 13 thinking about the 1 household

member who required the move earliest.

Details for these 23 new households have been summarised in Table 2 below. In the table “NA” stands for “Not answered”. In summary:

- 13 of the 23 new households would have a total annual income of less than £25,000, although 4 households did not give an answer
- 18 of the new households would be for a son or daughter (the remaining 5 did not answer the question)
- 11 of the 23 new households would be required within 2 years
- 5 of the new households would only be bought on the open market.

### **Further details of the 17 new households in Bunbury that might not be bought on the open market**

The 17 respondents who indicated the new households would either be subsidised ownership or rented (i.e. not bought on the open market) were then asked some further questions (questions 14 to 21).

Details for these 17 new households that would be subsidised ownership or rented have been summarised in Table 3 that follows. In the table “NA” stands for “Not answered”. In summary:

- 15 of the 17 would consider subsidised ownership, and 8 of the 17 would consider renting
- 10 of the 17 new households would be required within Bunbury, with 6 outside Bunbury but within Cheshire East (1 did not answer)
- 10 of the 17 would consider any accommodation type.

## Returning members of household

### Numbers of potential returning ex-Bunbury residents (returners)

Question 22 asked respondents if any member of their household had moved out of the parish or the Cheshire East area within the last five years, because they could not afford to buy/rent a home in the area.

217 Bunbury respondents answered the question, of which 20 (9%) answered yes, with the remaining 197 answering no - see Figure 6.

**Figure 6 – Has any member of your household moved out of the parish or the Cheshire East area within the last five years, because they could not afford to buy/rent a home in the local area?**

Of the 20 that answered yes, 13 said that these ex-household members who had moved out of the area would wish to return within 5 years if affordable housing was available, with 5 saying no, and 2 saying they were unsure.

### Details of the 13 returners

Questions 24 to 28 asked the 13 respondents who had ex-household members who would wish to return about the details of the potential returners. These 13 respondents had a total of 18 ex-household members between them and were asked to answer questions 25 to 28 thinking about the 1 household member who wished to return earliest. Table 4 that follows summarises the details of these returners. In the table “NA” stands for “Not answered”. In summary:

- There were a total of 18 ex-Bunbury residents who would want to return if affordable housing were available
- 10 of the 13 first returners would want to do so within 2 years
- All 13 of the first returners would be a son or daughter
- 1 would only buy on the open market.
