Patrik was previously open to social care as child protection due to domestic abuse concerns. The case closed as mum was moving back to her family in Poland with Patrik. He has been accessing 2yr funding. He left your nursery 8 days ago.

A member of staff saw Patrik and his 10 year old brother, Goran yesterday at the chip shop. This indicates that Patrick and family has returned to the local area, but as far as you are aware has not registered at a school.

- What would you do immediately?
- Would you record any of this, and if so where?
- What actions would you take in the longer term?
- If you felt that you needed to take further advice who would you speak to?

This is a Potentially a Child Missing Education.

Actions for setting

If you are not the DSL, report your concerns to your designated safeguarding lead or deputy

Ensure you make a record of your concern in line with your policy

The DSL will try to phone Mum to establish if the child has been registered at another school so that Safeguarding Records can be passed on.

As the child has only been closed because the family has left the country the DSL will seek further advice and support via CHECS on 0300 123 5012 and may also contact the police on 101 to ask for a welfare check on the child.

A CME should be completed as soon as possible and sent to Education Welfare Service.

A risk assessment may need to be put in place for their peers as they may also be at risk of exploitation.

Please see the following guidance for more information:
