# 1. Introduction

- 1.1 This report is the 'other settlements and rural areas' ("OSRA") report [ED 46]. It considers the approach to the other settlements and rural areas, to inform the development of the Revised Publication Draft Site Allocations and Development Policies Document ("SADPD") [ED 01].
- 1.2 Documents referenced with the 'ED' prefix are available to view in the Revised Publication Draft SADPD consultation library.

## 2. Other settlements and rural areas

### Introduction

- 2.1 The Cheshire East Local Plan Strategy ("LPS"), adopted in 2017, sets the settlement hierarchy for the borough, which contains four tiers of settlements:
  - i) Principal towns (Crewe and Macclesfield);
  - ii) Key service centres (nine specified settlements);
  - iii) Local service centres (13 specified settlements); and
  - iv) Other settlements and rural areas (settlements not specifically named).
- 2.2 Cheshire East is a large, predominantly rural borough and contains a wide variety of settlements below the level of the local service centres in the settlement hierarchy. The 2018 mid-year population estimate for the whole of the other settlements and rural areas was 52,400 people.

### Strategy for development in the OSRA

- 2.3 The LPS strategy is to direct the majority of new development requirements to the higher order centres in the settlement hierarchy.
- 2.4 LPS Policy PG 2 'Settlement Hierarchy' sets out the types of development that may be appropriate in the other settlements and rural areas:

*"In the interests of sustainable development and the maintenance of local services, growth and investment in the other settlements should be confined to proportionate development at a scale commensurate with the function and character of the settlement and confined to locations well related to the existing built-up extent of the settlement. It may be appropriate for local needs to be met within larger settlements, dependent on the location."*

### Neighbourhood Development Plans

- 2.5 Neighbourhood planning was introduced with the Localism Act 2011 and gives communities powers to write planning policies through Neighbourhood Development Plans ("NDPs") and grant planning permission through Neighbourhood Development Orders. Neighbourhood planning provides a powerful set of tools for local people to make sure that they get the right types

of development for their community where the ambition of the neighbourhood is aligned with the strategic needs and priorities of the wider local area.

2.6 Within the other settlements and rural areas, a large number of neighbourhood plans have been made or are being prepared.

Stage reached	OSRA neighbourhood plans	Other neighbourhood plans with part of the area in OSRA
Made plans	<ul style="list-style-type: none"> <li>• Acton, Edleston and Henhull</li> <li>• Astbury and Moreton</li> <li>• Brereton</li> <li>• Buerton</li> <li>• Calveley</li> <li>• Church Minshull</li> <li>• Hulme Walfield and Somerford Booths</li> <li>• Marton</li> <li>• Moston</li> <li>• Newhall</li> <li>• Somerford</li> <li>• Stapeley and Batherton</li> <li>• Weston and Basford</li> <li>• Willaston</li> <li>• Wistaston</li> <li>• Wybunbury combined parishes</li> </ul>	<ul style="list-style-type: none"> <li>• Alsager</li> <li>• Audlem</li> <li>• Bollington</li> <li>• Bunbury</li> <li>• Chelford</li> <li>• Disley</li> <li>• Goostrey</li> <li>• Handforth</li> <li>• Holmes Chapel</li> <li>• Knutsford</li> <li>• Poynton with Worth</li> <li>• Sandbach</li> <li>• Wilmslow</li> <li>• Wrenbury cum Frith</li> </ul>

**Table OSRA 1: Neighbourhood plan coverage (June 2020)**

2.7 Further information on neighbourhood plans can be found on the council's website<sup>1</sup>.

### 3. Development needs in the other settlements and rural areas

3.1 The LPS identifies a borough wide requirement for a minimum of 36,000 homes and 380 hectares of employment land over the Plan period, 2010 to 2030 (Policy PG 1 'Overall development strategy').

3.2 The OSRA are expected to accommodate in the order of 69 hectares of employment land (including the 61 hectare LPS employment improvement area at Wardle) and 2,950 new homes (including the LPS strategic site at Alderley Park) (Policy PG 7 'Spatial distribution of development').

3.3 The approach to meeting development requirements in the OSRA is set out in a separate paper 'The provision of housing and employment land and the approach to spatial distribution' [ED 05]. This paper establishes that housing and employment allocations are not necessary at the OSRA tier of the settlement hierarchy.

3.4 There is a wide variety of settlements and rural areas within the OSRA tier of the settlement hierarchy and, as set out in Figure OSRA 1 below, development requirements can be met from completions to date and existing commitments. Development in the OSRA settlements should be commensurate with the function and character of the settlement and confined to locations well related to the existing built up area of the settlement. Consequently, it will not be necessary to disaggregate the overall OSRA requirement to individual settlements or rural areas in the SADPD or allocate specific sites.

3.5 Figure OSRA 1 shows the remaining development requirements for the other settlements and rural areas.

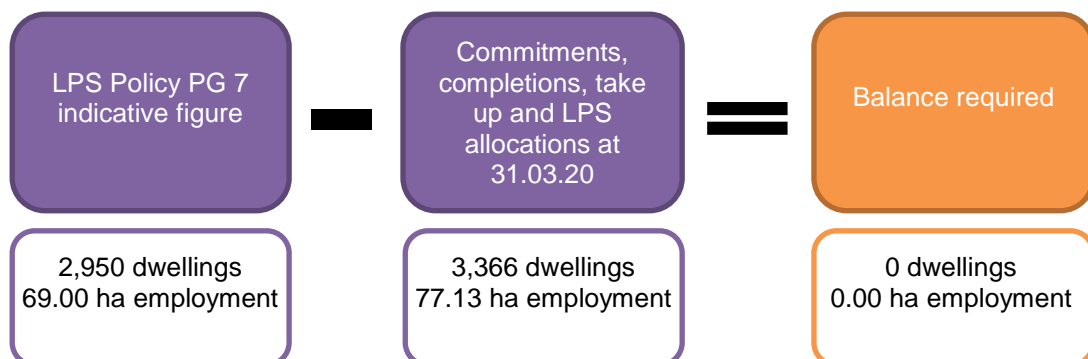

Figure OSRA 1: Amount of land required over the plan period

<sup>1</sup> <https://www.cheshireeast.gov.uk/planning/neighbourhood-plans/neighbourhood-planning.aspx>

- 3.6 There were 1,586 housing completions (net) in the OSRA between 01 April 2010 and 31 March 2020, and 9.38 ha employment land take up. Commitments (excluding LPS strategic sites) at 31 March 2020 were 1,399 dwellings and 6.07 ha of employment land.
- 3.7 In addition, there is also one rural strategic site in the LPS allocated for housing. As at 31 March 2020, there were 119 net housing completions and 262 housing commitments on this site; there were no further housing allocations on this site. Therefore, the total number of dwellings on allocated sites is 381.
- 3.8 There is also one rural strategic employment site allocated in the LPS. At 31 March 2020, there had been 0.00 ha of land taken up on this site and 48.00 ha was committed; a further 13.68 ha of land was allocated. Therefore, the total amount of employment land on allocated sites was 61.68 ha.
- 3.9 Taking into account existing completions/take-up and commitments, this leaves no remaining requirements for the provision of dwellings or employment land over the remaining plan period.

## 4. Approach to development sites in the other settlements and rural areas

- 4.1 This chapter outlines the approach to sites in the OSRA and should be read alongside the SADPD Site Selection Methodology Report [ED 07], the Revised Publication Draft SADPD Sustainability Appraisal (“SA”) [ED 03], the SADPD Habitats Regulations Assessment (“HRA”) [ED 04], and the Revised Publication Draft SADPD [ED 01]. It documents the relevant stages of the site selection methodology<sup>2</sup>.
- 4.2 Within the top two tiers of the settlement hierarchy (principal towns and key service centres), the total requirement for each tier is disaggregated to individual settlements through the LPS. This means that 11 settlements have an individual housing and employment land figure. These figures are expressed as ‘in the order of’ and a guide to the intended spatial distribution of development within each tier. They are neither targets nor ceilings.
- 4.3 As set out in ‘The provision of housing and employment land and the approach to spatial distribution’ report [ED 05], it is not proposed to disaggregate the PG 7 figures for local service centres or the OSRA to individual settlements through the SADPD. Given the large number and variety of smaller settlements in the OSRA, it is not considered that a prescriptive approach to the spatial distribution of development within this tier is necessary or beneficial. There are a very significant number of settlements

---

<sup>2</sup> Stage 1 – establishing a pool of sites; Stage 2 – first site sift; Stage 3 – decision point; Stage 4 – site assessment, sustainability appraisal, and Habitats Regulations Assessment; Stage 5 – evaluation and initial recommendations; Stage 6 – inputs from infrastructure providers/statutory consultees; Stage 7 – final site selection.

in OSRA. Even if the disaggregation exercise was confined to the settlements that have been defined as villages for the purposes of establishing where limited infilling may be acceptable or not, this would still have involved 36 further settlements. The council is also mindful that the overall development requirements for the OSRA tier can be comfortably met (and exceeded) by completions to date and existing commitments. Continued windfall proposals in the OSRA tier is likely to mean that the housing requirement will be exceeded to a significant degree, well above the original level of flexibility applied to it in the LPS. For these reasons, a windfall-based approach was chosen in favour of making further site allocations in the OSRA.

- 4.4 Cheshire East is one of the leading local authority areas in the country for bringing forwards neighbourhood plans. A large number of the made neighbourhood plans and those under preparation include housing targets for the neighbourhood area. Where communities wish to set development requirements in the OSRA tier of the settlement hierarchy, the neighbourhood planning process is able to achieve this.

## **Stage 1: Establishing a pool of sites for the other settlements and rural areas**

- 4.5 In line with the SSM, a longlist of potential sites was established for the OSRA. This pool consisted of all sites submitted to the Call for Sites (June 2017), the First Draft SADPD consultation (October 2018) and the initial Publication Draft SADPD consultation (September 2019).
- 4.6 A total of 279 sites were identified at stage 1 and this pool of sites is listed in Appendix 1, with the headline figures shown in Table OSRA 2 below. Maps of the sites (by parish) are included in the 'Call for sites report' [ED 45].

## **Stage 2: First site sift**

- 4.7 The first site sift was carried out to produce a shortlist of sites for further consideration in the site selection process. Sites were removed that:
- cannot accommodate 10 dwellings or more, unless they are in the Green Belt or Open Countryside, as defined in the LPS and are not currently compliant with those policies;
  - are not being actively promoted;
  - have planning permission as at 31/03/20;
  - are in use (unless there is clear indication that this will cease);
  - contain showstoppers (i.e. SPA, SAC, Ramsar, SSSI, functional floodplain (flood zone 3b), historic battlefield);
  - are LPS safeguarded land; or
  - are allocated in the LPS.
- 4.8 A total of 250 sites were included in stage 2 following the first site sift. These are listed in Appendix 1, with the headline figures shown in Table OSRA 2 below. Maps of the sites (by parish) are included within the 'Call for sites report' [ED 45].

	Housing		Employment	
	Number of sites	Dwellings	Number of sites	Employment land (ha)
<b>Stage 1</b>	279	17,124	44	178.27
<b>Stage 2</b>	251	16,508	42	177.83

**Table OSRA 2: OSRA sites considered in Stages 1 and 2 of the SSM**

### **Stage 3: Decision point – the need for sites in the other settlements and rural areas**

- 4.9 Stage 3 of the SSM is a decision point whereby account was taken of the most up-to-date employment and housing land supply information (as at 31 March 2020) to determine whether or not the OSRA required sites to be identified in the SADPD.
- 4.10 As detailed in Figure OSRA 1, there are no remaining development requirements in the OSRA and consequently there is no need to find further sites for housing or employment.
- 4.11 Furthermore, neighbourhood planning is an established part of the development plan in Cheshire East, and as set out in Table OSRA 1 above, there are many made plans, and plans currently under preparation. These are able to allocate sites for development where there are particular local issues. For example, within the OSRA, the Calveley Neighbourhood Plan (made on 20 December 2018) allocates three sites for a total of 19 dwellings. The neighbourhood plans for Hankelow and High Legh are currently under preparation and it is understood that they seek to make allocations for around 4 and 25-50 dwellings respectively.

#### **Recommendation regarding the allocation of sites for development in the OSRA (Stage 3)**

Taking into account and balancing the range of factors considered in the SSM, it is recommended that no sites should be allocated in the SADPD for development in the OSRA.

- 4.12 As the decision at stage 3 of the site selection methodology is not to allocate any sites in the other settlements and rural areas, no further work under stages 4-7 has been carried out.

## 5. Appendices

### Appendix 1: Stage 1 and stage 2 sites table

Source <sup>3</sup>	Ref	Site name and address	Size (ha) <sup>4</sup>	No. of dwgs <sup>5</sup>	Emplo land (ha)	Retail (ha)	Other uses?	Sifted out? <sup>6</sup> (Y/N)	Comments
D	CFS3	Land off and behind Wrenbury Road, Marbury	1.62	9	0	0	0.1ha Community Facilities	N	Although the site cannot accommodate 10 dwellings or more it is in open countryside outside settlement boundaries.
D	CFS8	Edleston Hall Lane, Ravensmoor	0.72	22	0	0	No	N	A small part of the site is in flood zone 3b along the northern boundary but the remaining part could accommodate more than 10 dwellings. It is in the open countryside.
D	CFS11	Land off Gawsforth Road, Gawsforth	3.14 (2.98)	90	0	0	0.16 ha open space	N	The site is in the Green Belt.
D	CFS13	277 Crewe Road, Haslington	4.04	100	0	0	No	N	A small part of the site along the northern boundary is in Flood Zone 3b but it is considered that the remaining part of the site could accommodate more than 10 dwellings.
D	CFS14	Land southwest of Henhull Bridge, Henhull	2.30	69	0	0	No	Y	The site is located in a Registered Battlefield (Battle of Nantwich).

<sup>3</sup> A - LPS Final Site Selection Reports (July 16); B - Urban Potential Assessment (Aug 15); C - Edge of Settlement Assessment (Aug 15); D - Call for sites (June 17); E - LPS Examination Hearings (Oct 16); F - First Draft SADPD consultation (Oct 18); G - initial Publication Draft SADPD consultation (Sept 19).

<sup>4</sup> Numbers in brackets are the developable areas, when stated in the call for sites/First Draft SADPD/initial Publication Draft representations.

<sup>5</sup> Figure as stated in call for sites/First Draft SADPD/initial Publication Draft SADPD representations or estimated at 30 dwellings per hectare.

<sup>6</sup> Exclude sites that: can't accommodate 10 dwellings or more, unless they are in the Green Belt or Open Countryside (as defined in the LPS) and are not currently compliant with those policies; are not being actively promoted; have planning permission as at 31/03/20; are in use (unless there is clear indication that this will cease); contain showstoppers (i.e. SPA, SAC, Ramsar, SSSI, functional floodplain (flood zone 3b), historic battlefield); are LPS Safeguarded Land; are allocated in the LPS.
