Site Allocations and Development Policies Document

The Approach Towards Small Sites [ED 58]

August 2020

Contents

1. Introduction.....	3
2. Background	5
3. Supply on sites of 1 ha or less.....	7
Appendix 1: Sources of supply	9

1. Introduction

- 1.1 The National Planning Policy Framework (“NPPF”) recognises the contribution that small and medium sized sites can make to meeting the housing requirement of an area and that these sites are often built out relatively quickly.
- 1.2 ¶68 of the NPPF states that local planning authorities should identify, through the development plan and brownfield registers, land to accommodate at least 10% of their housing requirement on sites no larger than one hectare (“ha”); unless it can be shown, through the preparation of relevant plan policies, that there are strong reasons why this 10% target cannot be achieved.
- 1.3 This report [ED 58] explains the approach taken towards the provision of small and medium sized sites in the Revised Publication Draft Site Allocations and Development Policies Document (“SADPD”) taking account of the latest housing monitoring position at 31 March 2020.
- 1.4 The SADPD is the second part of the Local Plan. It is a non-strategic plan prepared to be consistent with the strategic policies of the Local Plan Strategy (“LPS”) and includes, amongst other things, a range of policies to guide planning application decisions and the identification of updated settlement boundaries.
- 1.5 The SADPD also allocates a number of additional non-strategic sites for housing development to assist in meeting the overall housing needs established by LPS Policy PG 1 “Overall Development Strategy” of 36,000 new dwellings over the plan period. Alongside the LPS, the SADPD provides an appropriate strategy so that the strategic housing needs identified in the LPS are met in full.
- 1.6 It is highlighted in this report, that the LPS was adopted in July 2017, prior to the introduction of NPPF paragraph 68 in February 2018. ¶36 of the NPPF states that the tests of soundness when examining non-strategic policies are to be applied in a proportionate way, taking into account the extent to which they are consistent with relevant strategic policies for the area.
- 1.7 If the 10% requirement was applied retrospectively from the start of the plan period, 10% of the housing requirement of 36,000 dwellings would be 3,600 dwellings.
- 1.8 As set out in The Provision of Housing and Employment Land and the Approach to Spatial Distribution [ED 05], overall housing land supply at 31 March 2020 (including the contribution of 275 dwellings to be made through the SADPD) is 41,270 dwellings. There is now a very healthy supply of dwellings which is +5,270 dwellings over and above the housing requirement of 36,000 dwellings, equivalent to 14.6% plan flexibility.
- 1.9 The allocation of an additional 3,600 dwellings on sites of less than 1ha, in addition to the dwellings already completed, committed or allocated would significantly exceed the levels of development expected by the LPS.
- 1.10 Arguably given that the SADPD is being prepared half way through the plan period, it is a reasonable and proportionate approach to apply the 10% requirement to the number of homes left to build over the remaining years of the plan period.

- 1.11 At the 31 March 2020, net housing completions of 15,683 dwellings (of which 5,014 dwellings were on sites of 1 ha or less) leaves a remaining requirement of 20,317 dwellings to be completed over the remaining years of the plan period in order to meet 36,000. 10% of 20,317 dwellings is 2,032 dwellings.
- 1.12 This report demonstrates that taking account of sites identified in the Brownfield Register and those sources of supply identified in the LPS namely: sites with planning permission (commitments), allocations and the small sites windfall allowance, that there is a plentiful supply of sites of 1 hectare or less sufficient to both exceed 10% of the overall housing requirement and 10% of the remaining homes to be built over the plan period. On this basis, there is no further need to identify additional sites of 1 ha or less in order to meet the 10% requirement.
- 1.13 All documents referred to with the 'ED' prefix are available to view in the Revised Publication Draft SADPD consultation library.

2. Background

Introduction

- 2.1 Paragraph 68 of the NPPF states that ‘Small and medium sized sites can make an important contribution to meeting the housing requirement of an area, and are often built-out relatively quickly. To promote the development of a good mix of sites local planning authorities should:
- a) identify, through the development plan and brownfield registers, land to accommodate at least 10% of their housing requirement on sites no larger than one hectare; unless it can be shown, through the preparation of relevant plan policies, that there are strong reasons why this 10% target cannot be achieved;
 - b) use tools such as area-wide design assessments and Local Development Orders to help bring small and medium sized sites forward;
 - c) support the development of windfall sites through their policies and decisions – giving great weight to the benefits of using suitable sites within existing settlements for homes; and
 - d) work with developers to encourage the sub-division of large sites where this could help to speed up the delivery of homes.
- 2.2 This chapter identifies the housing requirement set out in the LPS and the changes that have taken place in supply and delivery since the plan was adopted. This context informs the approach taken towards sites of 1ha or less.

The Cheshire East Local Plan Strategy

- 2.3 The Cheshire East Local Plan Strategy (LPS) is the strategic plan for the borough and Policy PG 1 “Overall Development Strategy” established the objectively assessed need for 36,000 new dwellings over the plan period.
- 2.4 The LPS reflects the housing monitoring position at 31 March 2016 and this is summarised in Table 1.

Housing Supply	Net dwellings
Completions 01/04/10-31/3/2016	5,473
Supply (sites with planning permission and allocated sites)	29,377
Small sites windfall allowance for remaining years of the plan period	1,375
Sub total	36,225
Contribution to be made through the SADPD	3,335
TOTAL	39,560

Table 1: Housing supply at 31 March 2016

- 2.5 LPS ¶8.18 states that the council fully intends to meet the requirements of delivering 36,000 new dwellings over the plan period, taking into account various components of supply. These include: completions since the start of the plan period; sites with planning permission and those allocated in the LPS; a small sites windfall allowance and the contribution to be made from sites allocated in the SADPD.
- 2.6 As the LPS was adopted in July 2017, prior to the introduction of NPPF paragraph 68 the LPS does not contain any policies to require that 10% of the housing requirement of 36,000 dwellings (i.e. 3,600 dwellings) is accommodated on sites no larger than 1 ha. The SADPD is being prepared to be consistent with the LPS and the tests of soundness set out in ¶37 of the NPPF are to be applied in a proportionate way, taking into account the extent to which they are consistent with relevant strategic policies for the area.

2020 housing monitoring position

- 2.7 The SADPD is being prepared half-way through the LPS plan period and takes account of the latest monitoring position at 31 March 2020 and this is summarised in Table 2.

Housing Supply	Net dwellings
Completions 01/04/10-31/3/2020	15,683
Supply (sites with planning permission and allocated sites)	24,437
Small sites windfall allowance for remaining years of the plan period	875
Sub total	40,995
Contribution to be made through the SADPD	275
Total	41,270

Table 2: Housing supply at 31 March 2020

- 2.8 Supply at the 31 March 2020 is 41,270 dwellings (including the contribution of 275 dwellings to be made through the SADPD). This is a very healthy supply of dwellings which is +5,270 dwellings over and above the housing requirement of 36,000.
- 2.9 Net completions at the 31 March 2020 are 15,683 dwellings (of which 5,014 dwellings have been completed on sites of 1ha or less). The number of dwellings remaining to be built over the plan period to reach 36,000 is now 20,317.
- 2.10 Given that the SADPD is being prepared half way through the plan period and a proportion of the development expected has already been delivered, it is a reasonable and proportionate approach to apply the 10% requirement to the remaining levels of development of 20,317 dwellings. This equates to 2,032 dwellings.

3. Supply on sites of 1 ha or less

- 3.1 Further details of sources of supply from sites of 1 ha or less can be found at Appendix 1. This includes:

Brownfield Register

- 3.2 The council published its latest [Brownfield Register](#) (“BR”) in December 2019. The BR contains:
- Brownfield sites with extant planning permission or a resolution to grant planning permission as at 31 March 2019;
 - Brownfield sites allocated for residential development in the Cheshire East Local Plan Strategy (without planning permission);
 - Sites subject to Local Development Orders; and
 - Sites submitted to the council for inclusion within the register and assessed as being suitable, achievable and available for residential led development in accordance with the council’s published methodology.
- 3.3 There are 74 sites identified in the BR assessed as being suitable, available and achievable for residential development and together these sites are assessed as having a capacity of 2,122 dwellings.
- 3.4 Of these 74 sites, 63 comprise sites of 1ha or less with a capacity of 1,137 dwellings. Because of the difference in base date between the published BR (March 2019) and the latest monitoring data (March 2020) 72 dwellings on these sites had been completed by 31 March 2020. Net remaining dwellings on sites identified in the BR is 1,065 dwellings. The BR will be updated shortly to a 31 March 2020 base date.

Allocations made in Neighbourhood Development Plans (without planning permission)

- 3.5 At 31 March 2020, 30 Neighbourhood Development Plans (NDP’s) had been ‘made’ within the Borough. 2 NDP’s (Calveley and Wrenbury) allocate sites of 1 hectare or less. Of the sites allocated, two sites do not have planning permission and together these provide 16 dwellings.

Contribution from small sites allocated in the SADPD

- 3.6 The Revised Publication Draft SADPD makes provision for 2 sites both of 1 ha or less: PYT 3: Poynton High School (20 dwellings) and PYT 4: Former Vernon Infants School (50 dwellings).

Small sites windfall allowance

- 3.7 The LPS includes as part of plan supply a small sites windfall allowance (up to 9 dwellings, excluding residential gardens and the towns of Crewe and Macclesfield).

- 3.8 The allowance of 125 dwellings per annum is included within the supply from year 4 onwards, in order to avoid double counting from existing commitments. This allowance was based on evidence of consistent delivery of housing from such sites since 2009/10. As set out in The Provision of Housing and Employment Land and the Approach to Spatial Distribution [ED 05], the allowance is now looking very cautious compared to past delivery rates.
- 3.9 At 31 March 2020, remaining supply from the small sites windfall allowance is 875 dwellings. Given that this allowance relates to sites of up to 9 dwellings, these sites will fall within the definition of small/medium sized sites.

Supply from strategic sites of 1ha or less

- 3.10 There are 133 dwellings (net remaining) with planning permission on sites allocated in the LPS that have been sub-divided in parcels of 1 ha or less.

Non-strategic sites of 1 ha or less with planning permission

- 3.11 At 31 March 2020, the number of dwellings remaining on sites of 1 hectare or less with planning permission (excluding sites already identified on the BR) is 2,100 dwellings.

Sources of supply (sites of 1 hectare or less)	No. of dwellings
Brownfield Register (December 2019) sites of 1ha or less (net remaining)	1,065
Allocations made in NDPs without planning permission	16
Contribution from small sites allocated in the SADPD	70
Small sites windfall allowance for remaining years of the plan period	875
Supply from strategic sites being brought forward in parcels of 1 ha or less (net remaining)	133
Sub total	2,159
Non-strategic sites with planning permission (not included in BR and net remaining)	2,100
TOTAL	4,259

Table 3: Sources of supply for sites of 1ha or less

- 3.12 Table 3 shows that supply on sites of 1ha or less identified in the BR and the development plan is 2,159 dwellings. There is a further supply of 2,100 dwellings from non-strategic sites. This gives an overall total of 4,259 dwellings.
- 3.13 Supply of 4,259 dwellings exceeds both 10% of 36,000 dwellings (3,600) and 10% of the 20,317 dwellings left to build over the remaining years of the plan period (2,032).
- 3.14 Furthermore, small and medium sized sites will continue to come forward as the plan progresses, having regard to LPS Policies PG 2 “Settlement Hierarchy”, PG 6 “Open Countryside”, SC 6 “Rural Exceptions Housing for Local Needs” and SADPD Policies PG 8 “Development at Local Service Centres, PG 9 “Settlement Boundaries”, PG 10 “Infill villages”, HOU 3 “Self and custom build dwellings” and HOU 14 “Small and medium-sized sites”.
